The following is an examiner's statement of reasons for allowance: The cited prior art fails to teach or anticipated a micro fabricated device or the method of use to determine physicochemical properties of a compound where the device has a first fluid flowing through a first conduit and a second fluid flowing through a second conduit and the first fluid is non-miscible with the second fluid where the two fluid are contacted through a partitioning interface where the physiochemical properties of the compound after going through the partitioning interface is measured.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Weigl et al. does not qualify as prior art but does teach a method and apparatus for contacting two non-miscible fluid streams.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lyle A Alexander whose telephone number is 571-272-1254. The examiner can normally be reached on Monday, Wednesday and Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jill Warden can be reached on 571-272-1267. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
